# Students' ID Card

Upon student's registration, an ID card with the School Logo and Address is automatically generated.

The ID card is then printed and laminated for the student.

# Report Card And Broadsheet Management

Once students' scores are entered into the system, the software automatically compiles the report card. This makes buying report booklets unnecessary thereby reducing the cost of the running of the school.

# Parent/Teacher Communication and Alert System

This module boosts the relationship between the school and parents.

It has an automatic SMS system that communicates with parents immediately their child/ward makes payment; when their exam or test score is uploaded onto the system and when a child/ward is absent during attendance taking.

# Intelligence System

.Connect Educator has a unique feature that analyses students' performances by course, thereby calling a teacher's attention to those courses where students are having challenges.

# FINANCIAL MODULE

This Module takes charge of the Financial aspect of the school. It manages school bills, payments and expenses.

Bills can be assigned to individuals, classes and class-groups based on the created charge types( Tuition, Uniform, Damages etc.)
